## New Natoy

As I sit here writing this, the subtle perfume of lime is wafting through the air, bringing with it a freshness that takes me away from my desk - the culprit is a candle from Natoy which I quite frankly can't bear to take home, so much am I enjoying the fragrance. The Natoy range is new and it's all made with the purest ingredients to bring the subtle perfumes of coconut and lime, vanilla bean, lemongrass, honeysuckle, musk and coffee to your home in a collection of beautiful hand poured candles, fragrant aroma dispersers and natural body care products.
